

## **REACH / CLP AND UK REACH / GB CLP COMPLIANCE STATEMENT CE AND UKCA MARKING STATUS**

Date of statement: February 2th, 2026.

Product: **Flamblocker CF7 – Fire Suppression Liquid**

This statement is issued by Flamblocker BV, acting as supplier and distributor of the above-mentioned product.

Product: **Flamblocker CF7 – Fire Suppression Liquid**

This statement is issued by Flamblocker BV, acting as supplier and distributor of the above-mentioned product.

### **1. Manufacturer and REACH / CLP Responsible Party**

The manufacturer of Flamblocker CF7 is:

C-Fire Belgium  
Belgium

C-Fire Belgium is the regulatory responsible supplier for this product with regard to chemical compliance, classification, and regulatory status under applicable EU and UK chemical legislation. This statement is issued based on information and documentation provided by the manufacturer.

### **2. EU REACH Compliance**

In accordance with Regulation (EC) No 1907/2006 (EU REACH), we confirm that:

- All substances contained in Flamblocker CF7 are compliant with EU REACH requirements and are either:
  - duly registered under EU REACH, or
  - exempt from registration in accordance with the Regulation.
- The product does not contain substances subject to restriction or authorisation beyond the limits permitted under EU REACH.
- Where applicable, substances of very high concern (SVHC) are communicated in accordance with Article 33 of EU REACH.
- A valid EU Safety Data Sheet (SDS) is available and provided in accordance with EU REACH requirements.

### **3. UK REACH Compliance**

In accordance with UK REACH (retained Regulation (EC) No 1907/2006 as amended), we confirm that:

- Flamblocker CF7 complies with the applicable requirements of UK REACH for substances placed on the Great Britain market.
- Substances contained in the product are either:
  - appropriately registered under UK REACH, or
  - covered by transitional provisions, exemptions, or downstream user obligations, as applicable.
- Any SVHC obligations under UK REACH are fulfilled in accordance with the applicable legislation.
- A valid UK-compliant Safety Data Sheet (SDS) is available where required.

#### 4. EU CLP and GB CLP Compliance

In accordance with:

- Regulation (EC) No 1272/2008 (EU CLP), and
- GB CLP (retained and amended Regulation (EC) No 1272/2008),

we confirm that:

- Flamblocker CF7 is correctly classified, labelled, and packaged in accordance with the applicable EU and/or GB CLP requirements.
- Any applicable hazard classifications, pictograms, hazard statements (H-statements), and precautionary statements (P-statements) are correctly defined and reflected in the relevant SDS.
- Packaging and labelling meet the applicable safety, language, and information requirements for the market of supply.

#### 5. CE and UKCA Marking Status

Following an assessment of the applicable legislation:

- CE marking: Flamblocker CF7 does not fall within the scope of any EU Directive or Regulation that requires CE marking.
- UKCA marking: Flamblocker CF7 does not fall within the scope of any UK legislation that requires UKCA marking.

As a chemical fire suppression liquid, the product is not subject to CE or UKCA marking requirements. CE or UKCA marking may apply to systems, equipment, or installations in which this product is incorporated; in such cases, conformity marking is the responsibility of the manufacturer of the final system or installation.

#### 6. General

This statement is provided for information and documentation purposes only and does not replace legally required regulatory documents such as Safety Data Sheets or manufacturer technical documentation.

For additional technical or regulatory information, please contact **Flamblocker BV**, who will coordinate with the manufacturer where required.

Kind regards,

Martijn Beerthuisen  
COO
