

REACH / CLP AND UK REACH / GB CLP COMPLIANCE STATEMENT INCLUDING PFAS REGULATORY STATUS CE AND UKCA MARKING STATUS

Date of statement: February 2nd, 2026

Product: Flamblocker CF7 – Fire Suppression Liquid

This statement is issued by Flamblocker BV, acting as supplier and distributor of the above-mentioned product.

1. Manufacturer and REACH / CLP Responsible Party

The manufacturer of Flamblocker CF7 is:

C-Fire NV

Belgium

C-Fire NV is the regulatory responsible entity for this product with regard to chemical compliance, classification, and regulatory status under applicable European Union and United Kingdom chemical legislation.

This statement is issued based on information and documentation provided by the manufacturer.

2. EU REACH Compliance

In accordance with Regulation (EC) No 1907/2006 (REACH), we confirm that:

- All substances contained in Flamblocker CF7 are compliant with EU REACH requirements and are either:
 - duly registered under REACH, or
 - exempt from registration in accordance with the Regulation
- The product does not contain substances subject to restriction or authorisation beyond the limits permitted under REACH
- Where applicable, substances of very high concern (SVHC) are communicated in accordance with Article 33 of REACH
- A valid EU Safety Data Sheet (SDS) is available and provided in accordance with REACH requirements

3. PFAS Regulatory Compliance (EU 2025/1988 – Annex XVII, Entry 82)

In accordance with Commission Regulation (EU) 2025/1988, amending Annex XVII to Regulation (EC) No 1907/2006 (REACH) regarding restrictions on per- and polyfluoroalkyl substances (PFAS) in firefighting products, we confirm that:

- Flamblocker CF7 does not contain PFAS, including but not limited to PFOS, PFOA, PFHxA, or any other fluorinated organic compounds
- The product is fluorine-free based on formulation and supplier information
- The product does not fall within the scope of restricted PFAS-containing firefighting foams or liquids as defined under Annex XVII, Entry 82
- Flamblocker CF7 is therefore fully aligned with current and upcoming EU restrictions on PFAS in firefighting applications, including future market and use prohibitions

This confirmation is based on manufacturer data, formulation control, and supporting Safety Data Sheet information.

4. UK REACH Compliance

In accordance with UK REACH (retained Regulation (EC) No 1907/2006 as amended), we confirm that:

- Flamblocker CF7 complies with the applicable requirements of UK REACH for substances placed on the Great Britain market
- Substances contained in the product are either:
 - appropriately registered under UK REACH, or
 - covered by transitional provisions, exemptions, or downstream user obligations, as applicable
- Any SVHC obligations under UK REACH are fulfilled in accordance with the applicable legislation
- A valid UK-compliant Safety Data Sheet (SDS) is available where required

5. EU CLP and GB CLP Compliance

In accordance with:

- Regulation (EC) No 1272/2008 (EU CLP), and
- GB CLP (retained and amended Regulation (EC) No 1272/2008),

we confirm that:

- Flamblocker CF7 is correctly classified, labelled, and packaged in accordance with applicable EU and/or GB CLP requirements
- The product **does not meet the criteria for classification in any hazard class** under CLP
- Any applicable hazard classifications, pictograms, hazard statements (H-statements), and precautionary statements (P-statements), where relevant, are correctly defined and reflected in the Safety Data Sheet
- Packaging and labelling meet applicable safety, language, and information requirements for the market of supply

6. CE and UKCA Marking Status

Following an assessment of the applicable legislation:

- **CE marking:** Flamblocker CF7 does not fall within the scope of any EU Directive or Regulation requiring CE marking
- **UKCA marking:** Flamblocker CF7 does not fall within the scope of any UK legislation requiring UKCA marking

As a chemical fire suppression liquid, the product is not subject to CE or UKCA marking requirements. CE or UKCA marking may apply to systems, equipment, or installations in which this product is incorporated. In such cases, conformity marking is the responsibility of the manufacturer of the final system or installation.

7. General

This statement is provided for information and documentation purposes only and does not replace legally required regulatory documents such as Safety Data Sheets or manufacturer technical documentation.

For additional technical or regulatory information, please contact Flamblocker BV, who will coordinate with the manufacturer where required.

Kind regards,
